Volume 10

Hi Everyone!

It's time for the 2011 edition of "In the Zone". We hope this finds you all in good health and we wish you all a very happy Holiday season.

water temp down to 185 feet, making it impossible to reach with anything short of oil drilling equipment. We spent the rest of the summer fishing for Salmon in very warm water. It was a challenge. The Salmon run in the river however, was one of the best we have seen in years, which was nice after the tough lake season. The 2010 Steelhead season was once again awesome. Not much more can be said about it. We have the best steelie fishing in the World...period.
